

6" Black Triumph Angle Scraper
A1504A
Angled head allows for additional leverage.
Uses B145 or B145S

NEW! 6" Triumph Soft Grip Angled Scraper
A1504SGA
Angled head allows for additional leverage.
Uses B145 or B145S

Performax Handle

A1400P (Handle Only)
A1400G (Replacement Grip)
The Performax Handle with the Blue Max beveled & non-beveled blade allows you to handle any installation. 5" wide squeegee contact area with two stainless steel clamp screws to keep your blade where you want it. 8" overall length to fit even the largest of hands. Threaded handle to accept standard extensions for two handed work. Lightweight cast aluminum design gives you strength without extra weight.

Unger ErgoTec Handle
A1400E
Designed for use with channel blades sold on page 22.

6" Black Triumph Scraper
A1504
Uses B145 or B145S

NEW! 6" Triumph Soft Grip Scraper
A1504SG
Uses B145 or B145S

Unger Pro Handle
A1400
Designed for use with Blue Max Blades sold below and channel blades sold on page 22.

6" Triumph Scraper Retractable
A1504R
Uses B145 or B145S

6" Triumph Scraper Blades
B145 (25 Blades)

Blue Max Blade with angle
B3701 (5" x 2")
The best choice for most automotive or flat glass installations.

Motus D-Handle
A1400D
Make your Performax or Pro handle two-handed with this tool. Great for security film installations when extra leverage is needed.

6" S/S Triumph Scraper Blades
B145S (25 Blades)

Blue Max Blade without angle
B3701N (5" x 2")
B3701SN (5" x 1 3/8")
The best choice for maximum water removal from automotive or flat glass installations. These blades are a favorite for those who install security film. The smaller blade works to remove more water on your thickest security film jobs.

6" Red H/D Triumph Scraper
A1504H
Great for film removal. Uses B145H

6" H/D Triumph Scraper Blades
B145H (10 Blades)

Clear Max Blade
B3702 (5" x 2")
Cousin of the popular Blue Max, the clear is a slightly softer version (lower durometer).
