Scissor

Some of the sharpest scissors you will ever own. Great for cutting round edges or thick films. The serrated blades detailed here provide cutting accuracy on a variety of materials.

7" Olfa Scissors
A2907

5" Olfa Scissors
A2905

Felt Window Guide Tape
A1171F (50' roll)
Prevent scratching of film from hard window guides. More and more manufacturers are using hard plastic guides against windows. These guides can scratch even the highest quality films. This felt can be applied to guides to prevent scratching. The guide tape is fully weatherable for long lasting protection. Don't get caught without it.

Red Window Film Tape (3/8" X 60')
A1170
Allows you to re-tape rolls or pieces of film without worrying about leaving an adhesive residue. Also works well to assist in removing release liner from film.

NEW! Carpenters Pencil
A2500P
Used with transfer tape to make patterns.

Window Switch Tape
A1169 (1000 Count Roll)
Do you get tired of replacing side windows because of customer mistakes? This item is a must! Just place a reminder on each window switch to help your customers remember to let the film cure. One saved "Re-Do" pays for the whole roll!
